I campioni sono stati realizzati da tre produttori: MKS ed EMA a Calcutta in India, BaSE a Khulna in Bangladesh. In fase di produzione verranno coinvolti anche gli artigiani di SILENCE di Calcutta per la realizzazione delle scatoline in cartone per accessori in pelle.

A causa del COVID anche la realizzazione dei campionari è stata molto complicata: ecco le tre testimonianze dei produttori:

Da BaSE 22/06/2021

Dear all in EQUOMERCATO,

Greetings. Hope you are fine.

In Bangladesh COVID situation is getting worse. Indian variant of virus affecting across the country. Till last month infection was only in the City and Town people but now it's spread in the villages.

We were able to keep our artisans safe till last month. But now many of our artisans are having Corona. But still not any death news. We cross our fingers for the goods.

Vaccination is not sufficient. Only 10 million people received the vaccine. Due to vaccine shortage, now it will not continue! We are not sure how long it will take to get vaccination in villages.

We have been in lockdown. Maybe it will continue till July!

Regarding the samples, we are very sorry for the enormous delay. First we gave the Date leaf basket samples to Valerian Handicrafts in Shimulia village but after 1 month the incharge Sister Jacinta told us they will not produce the sample because they find the items complicated! Later we produce the sample rushly with other group individual producers! For that reason all samples are not made accurately. Now we have completed the 2nd version of samples and are ready for shipment.

(...)

Warm Regards,

Shourove

BaSE

Da MKS 30/06/2021

Dear all in EQUOMERCATO,

Please see the COVID update: as you might know, the Delta variant has been quite scary across India in April, May and June. With strict lockdowns and massive vaccination drives, the situation has eased a bit.

But not completely.

We still have the fear of 3rd wave after the lockdown has been lifted.

Luckily Kolkata did not face as much as other parts did. However, the impact has nonetheless been any less. We have artisans and small rural handicraft businessmen approaching us for work opportunities. We have been hearing about many small artisans on the verge of closing down. The economic turmoil has only added to the whole fiasco. The vaccination drive is improper, with news of fraudulent vaccines being given to people.

Since the lockdowns are being lifted and restrictions are eased, we are coming back to normal operations. The samples are going to be ready by this weekend and we will ship them by the beginning of next week.

Regards

Archi

MKS

Da EMA 14/07/2021

Dear all in EQUOMERCATO,

Greetings from EMA, Hope all is well in Italy.

First of all we are extremely sorry for the late delivery of our sample. But we have nothing in our hand in this lockdown. In this Lockdown we face extreme difficulty in sourcing of Raw Materials, all our suppliers was totally closed their counters.

So we could not arrange the materials to initiate the work.

Again due to lockdown the transport was totally off, so the Fabricators do not come to the office.

It was again a big reason for the delay of the production.

Actually our EMA unit was totally closed for about one and half month that is from mid of May to end of June, so in this huge time gap the production work was badly hampered.

For Leather goods as per your specification we need some special items, which we never used before like wooden handle, bamboo handle, so again we invest some more time to collect those things from the best suppliers. So these are the main reason for our delay supply of the new samples.

As you know we could not send the screen printing scarves, the reason is again same that is complete Lockdown from mid of May to June, but again as the screen printing making unit is situated in Seerampore area which later declared as contentment zone, so this lockdown extended for 14 more days, till date we have not received the screens, hopefully we will receive the screen on 3rd week of July, and finally the sample will be dispatched on end of July.

Thanks

Dipanwita

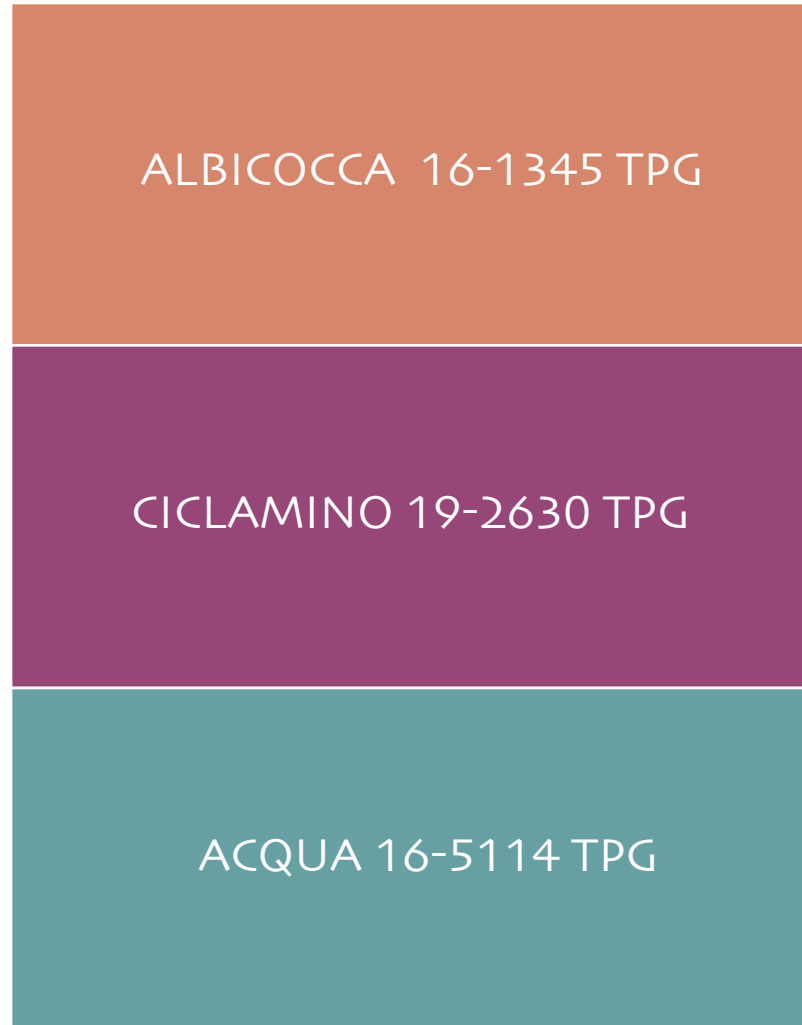

EMA Team
